Quiz 12 on Task: A Smarter cart
July 24, 2018

Name: Yuta Nemoto
ID: 51240234

1. What are the points to improve cart functionality?

- We need to recognize when customers add multiples of the same item to the cart.
- The cart itself can handle error cases.

2. What should be done to improve the app from the security point of view?

- We will log the error fact to an internal log file using Rails logger facilities.
- We will redisplay the catalog page with a short message to the user (Invalid cart), so they can continue to use our site.

3. What is the name of the method responsible for deleting the cart and removing it from the session?

destroy method.
